Office Action Summary

Art Unit: 1724

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 07, 2003 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 5-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The meaning of the recitation "said cartridge being free of an open void volume which causes separation of particles from said slurry upstream of a top surface of said depth filter in contact with said slurry" is not understood. This recitation states that separation takes place before the fluid encounters the surface of the filter. Thus, it is unclear why the filter is needed, or what function it performs.

Request for An Interview

4. The Examiner requests that Applicant contact the Examiner to discuss the invention.

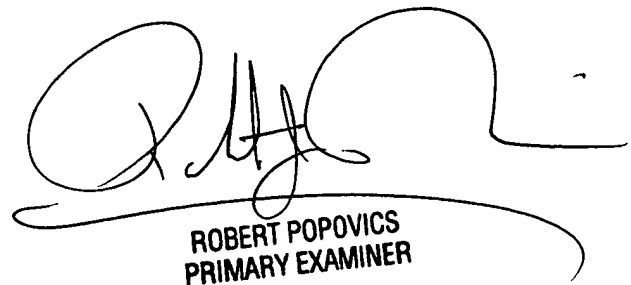

Art Unit: 1724

Claim Objections

5. As drafted, claim 5 defining specific manipulative steps that Applicant regards as his invention is somewhat awkward. Applicant is urged to draft claim 5 in the format suggested by 37 CFR 1.75(I) *“Where a claim sets forth a plurality of elements or steps, each element or step of the claim should be separated by a line indentation.”* Such format will make the claim easier to read and understand.

Conclusion

6. Any inquiry concerning this communication should be directed to Examiner Popovics at telephone number (703) 308-0684.
